PROFESSIONAL SUMMARY

Software Developer with expertise in full-stack web development (MERN), Android programming, and data-driven Python applications. Strong analytical foundation in Mathematics with a proven track record of delivering scalable client projects, integrating modern APIs, and leading technical developer workshops..

EDUCATION

St. Aloysius (Deemed to be University) – AIMIT Center <i>Master of Science in Software Technology</i>	Mangaluru, India Aug 2024 – Jun 2026
St. Aloysius College (Autonomous) <i>Bachelor of Science in Mathematics and Computer Science</i>	Mangaluru, India Oct 2021 – May 2024

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS
Frameworks/Libraries: React.js, Node.js, Express.js, Streamlit
Databases: MongoDB, Firebase Realtime Database
Tools & Platforms: Git, GitHub, Android Studio, Postman, 3D Slicer

EXPERIENCE

Research Intern <i>St. Aloysius (Deemed to be University) – AIMIT Center</i>	Dec 2025 – Mar 2026 Mangaluru, India
- Utilized 3D Slicer to process and analyze complex DICOM medical imaging files, creating accurate 3D anatomical visualizations. - Conducted research on medical image segmentation and spatial modeling to optimize domain-specific visualization workflows. - Collaborated with faculty to evaluate imaging software capabilities and troubleshoot 3D rendering and data extraction processes.	

PROJECTS

Medical Report Parsing and Standardization Python, Streamlit, Gemini API	Mar 2026
- Developed an interactive web application using Streamlit to automatically extract and standardize unstructured data from uploaded medical reports. - Integrated the Gemini API to intelligently parse complex medical terminology and convert raw text into structured, accessible formats. - Streamlined the healthcare data extraction pipeline, demonstrating strong domain knowledge and practical AI application for M.Sc. coursework.	
Full Stack Developer – Team Project <i>Client Project: S4Holidays</i>	–
- Developed a production-ready travel website using the MERN stack, supporting dynamic tour listings and bookings. - Implemented responsive UI components and RESTful APIs for efficient data handling. - Collaborated using Git for version control, task tracking, and deployment coordination.	
MovieStar React, Node.js, Express, MongoDB	
Built a full-stack movie discovery platform featuring trailers, watchlists, JWT-based authentication, and TMDb API integration.	
MissionME Java, Android Studio, Firebase	
Developed a native Android task management application with real-time Firebase synchronization and user authentication.	

LEADERSHIP EXPERIENCE

Workshop Lead – Mobile Application Development

Sep 2025

St. Joseph's College

Hassan, Karnataka

- Led a hands-on workshop covering mobile app architecture, UI design, and practical implementation.
- Mentored participants through coding exercises and real-world application scenarios.

Workshop Co-Facilitator – Mobile Application Development

Aug 2025

St. Anne's Degree College (Kodagu University)

Virajpet, Karnataka

- Assisted in content delivery, live demonstrations, and participant guidance.
- Received a Certificate of Appreciation for teamwork and effective knowledge sharing.

Organizer – Python Programming Workshop

Feb 2025

St. Aloysius (Deemed to be University)

Mangaluru, India

- Organized and conducted a Python workshop for undergraduate students with hands-on exercises.
- Coordinated logistics and faculty collaboration for smooth execution.
